

# ManageBac+

Our platform now empowers British International Schools to deliver all major British curricula, including Cambridge and Pearson.

# Introducing ManageBac+ for British International Schools

Think you know us? Time to think again! We're not just for the IB, our platform now empowers British International Schools to deliver Cambridge, Pearson, your national curriculum, and more, with ease. From curriculum planning to assessment and reporting, ManageBac+ is seamless, smart, and tailored to your needs.

New **British curriculum** mode designed especially for British International Schools.

Easy onboarding and a familiar user experience with **British-English** language and terminology.

Planning support across all major **British curricula** frameworks, including – Cambridge, Pearson, AQA, EDUQAS, OCR, IMC & IPC.

**New Unit Planner templates** with tailored terminology and templates for British curriculum frameworks.

Suggested learning frameworks including **Cambridge Learner Attributes** and Sustainable Development Goals (SDG).

**Tracking and reflection tools** for co-curricular activities including sports, service learning, and other student engagement outside of the classroom.

## Chad Strachan

Director of IT

**St Andrew's International School, Bahamas**

Before ManageBac+, St Andrew's LMS & SIS never worked seamlessly together. Now the whole school curriculum, including International GCSE courses, is managed through the same platform. It's been great knowing that you guys can adjust to that mix of programmes.

### Key Features:

#### **Unit Planning and Templates**

Curriculum-aligned and customisable templates for seamless organisation.

#### **Built-in Guidance**

Supporting every step of unit planning including aims and objectives.

#### **Whole-School Curriculum and Analytics**

Easily map your whole-school curriculum and identify any gaps.

#### **New Feature: Class Streams**

Organise classroom resources, activities, communication, and student work.

#### **New Feature: Portfolio**

Showcase a student's learning throughout their entire academic journey.

#### **Assessment and Reporting**

Seamlessly assess and report academic achievement, attendance and more.

## Wendy Lin

International Curriculum Director

**Shanghai Qibao Dwight High School, China**

The design of ManageBac+ allows for the simultaneous implementation of multiple curricula, empowering our teaching and learning processes.

### David Sommers

ManageBac+ Coordinator

**Sekolah Pelita Harapan Lippo Village School, Indonesia**

Following a summative, there's that wonderful button 'Send Grade Report', it sends an email to the parent and student with the grade, and parents really appreciate this – it helps build communication with them. ManageBac+ has made life easier for teachers, staff, and parents at all levels.

### Ni Jiahui

Edutech Manager

**Shanghai Qibao Dwight High School, China**

ManageBac+ excels in centralising student information and communication. With a large student body, the platform's efficiency in managing learning progress, behaviour records, report cards, attendance, calendars including assignments and important deadlines, as well as parent notifications is invaluable.

### Chad Strachan

Director of IT

**St Andrew's International School, Bahamas**

Not only is the software great, but your customer support has been the best I've ever experienced in all my years at St Andrew's, with any company, I feel like I have a virtual tech team in the cloud with me.
